Magic Mouse

Quick Start

Your wireless Apple Magic Mouse comes with two AA batteries installed and uses Bluetooth® technology to connect to your Mac.

Read these instructions to set up your mouse with a new Mac, replace your USB mouse, pair your mouse with a different Mac, and replace the batteries.

Updating Your Software

To use your Apple Magic Mouse and its full range of features, update your Mac to Mac OS X version 10.5.8 or later and install the Wireless Mouse Software Update 1.0; or update to Mac OS X version 10.6.2 or later.
To update to the latest version of Mac OS X, choose Apple ($\bullet$) > Software Update from the menu bar, and follow the onscreen instructions.

When installation is complete and you restart your Mac, use Software Update again to make sure all of the available updates are installed.

About the Indicator Light

The indicator light displays the status of your Apple Magic Mouse and the batteries.

- When you first turn your mouse on, the indicator light glows steadily for 5 seconds, indicating the batteries are good.

- If your mouse isn't paired with a Mac, the light blinks, indicating your mouse is in discovery mode and ready to pair (pairing means your mouse and Mac are wirelessly connected to each other and ready to communicate).

- If you don't pair your mouse with your Mac within 3 minutes, the light and mouse turn off to preserve battery life. Slide the On/off switch on the bottom of your mouse to turn it on again, allowing you to pair it with your Mac.

- When your mouse is on and paired, with the batteries charged, the light glows steadily.

Pairing with a New Mac

Follow the instructions in the user guide that came with your Mac to set it up. Skip the instructions for connecting a USB mouse.

The first time you start up your Mac, Setup Assistant guides you in pairing your Apple Magic Mouse with your Mac.

To pair your mouse with a new Mac:

1 Slide the On/off switch on the bottom of your mouse to turn it on (see page 3).

2 Turn on your Mac and follow the onscreen instructions in Setup Assistant.

3 Once your mouse is paired with your Mac, use Software Update again to make sure you have the latest software installed (see page 2).

Replacing a USB Mouse

Use your existing USB mouse to pair your Apple Magic Mouse with your Mac.

You can also use this information to pair your mouse with a portable Mac.

To replace a USB mouse:

1 Slide the On/off switch on the bottom of your Apple Magic Mouse to turn it on (see page 3).

2 Choose Apple ( ) > System Preferences, and then click Mouse.

3 Click "Set Up Bluetooth Mouse …" in the lower-right corner.

4 Select your mouse, and then follow the onscreen instructions to pair it with your Mac.

5 Disconnect the USB mouse from the USB port.

Pairing with A Different Mac

After you pair your Apple Magic Mouse with a Mac, you can pair again with a different Mac. To do this, remove the existing pairing, and then pair the mouse again.

To pair with a different Mac:

1 Choose Apple ( ) > System Preferences, and then click Bluetooth.

2 Select your mouse in the Bluetooth preferences pane.

3 Click the Delete (–) button in the lower left corner.

Using Your Apple Magic Mouse

Your Apple Magic Mouse has a seamless Multi-Touch surface you can use to right-click, left-click, scroll, and swipe. To set up Multi-Touch gestures and customize the way your mouse works, choose Apple ( ) > System Preferences, and then click Mouse.

Replacing the Batteries

Your Apple Magic Mouse comes with two AA batteries installed. You can use alkaline, lithium, or rechargeable AA batteries in your mouse.

Dispose of batteries according to your local environmental laws and guidelines.

To replace the batteries:

1 Slide the latch down and remove the battery cover.

2 Insert the batteries with the positive (+) end facing up, as shown in the illustration.

3 Replace the battery cover.

Latch

You may have to click your Apple Magic Mouse once to reconnect it with your Mac.

WARNING: Replace both batteries at the same time. Don't mix old batteries with new batteries or mix battery types (for example, alkaline and lithium batteries). Don't open or puncture the batteries, install them backwards, or expose them to fire, high temperatures, or water. Don't charge the nonrechargeable AA batteries that came with your mouse. Keep batteries out of the reach of children.

Battery Level Indicator
To check the battery level, choose Apple () >
System Preferences, and then click Mouse. The
battery level indicator is in the lower-left corner.

Note: When you aren't using you mouse, it goes
to sleep to conserve battery power. If you won't
be using your mouse for an extended period,
turn it off.

Cleaning
To clean the outside of your mouse, use a lint-
free cloth that's been lightly moistened with
water. Don't get moisture in any openings or
use aerosol sprays, solvents, or abrasives.

Ergonomics
For information about ergonomics, health,
and safety, visit the ergonomics website at

Regulatory Compliance Information

Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See instructions if interference to radio or television reception is suspected.

L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes : (1) il ne doit pas produire de brouillage et (2) l'utilisateur du dispositif doit étre prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

Radio and Television Interference

This computer equipment generates, uses, and can radiate radio-frequency energy. If it is not installed and used properly— that is, in strict accordance with Apple's instructions—it may cause interference with radio and television reception.

This equipment has been tested and found to comply with the limits for a Class B digital device in accordance with the specifications in Part 15 of FCC rules. These specifications are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation.

You can determine whether your computer system is causing interference by turning it off. If the interference stops, it was probably caused by the computer or one of the peripheral devices.

If your computer system does cause interference to radio or television reception, try to correct the interference by using one or more of the following measures:

· Turn the television or radio antenna until the interference stops.

- Move the computer to one side or the other of the television or radio.
- Move the computer farther away from the television or radio.
- Plug the computer into an outlet that is on a different circuit from the television or radio. (That is, make certain the computer and the television or radio are on circuits controlled by different circuit breakers or fuses.)

If necessary, consult an Apple Authorized Service Provider or Apple. See the service and support information that came with your Apple product. Or, consult an experienced radio/television technician for additional suggestions.

Important: Changes or modifications to this product not authorized by Apple Inc. could void the EMC compliance and negate your authority to operate the product.

This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables (including Ethernet network cables) between system components to reduce the possibility of causing interference to radios, television sets, and other electronic devices. Turn the television or radio antenna until the interference stops.

Disposal and Recycling Information

When this product reaches its end of life, please dispose of it according to your local environmental laws and guidelines.

For information about Apple's recycling programs, visit: www.apple.com/environment/recycling

Battery Disposal Information

Dispose of batteries according to your local environmental laws and guidelines.

Deutschland: Das Gerät enthält Batterien. Diese gehören nicht in den Hausmüll. Sie können verbrauchte Batterien beim Handel oder bei den Kommunen unentgeltlich abgeben. Um Kurzschlüsse zu vermeiden, kleben Sie die Pole der Batterien vorsorglich mit einem Klebestreifen ab.

Nederlands: Gebruikte batterijen kunnen worden ingeleverd bij de chemokar of in een speciale batterijcontainer voor klein chemisch afval (kca) worden gedeponeerd.

Taiwan:

廢電池請回收

European Union—Disposal Information

The symbol above means that according to local laws and regulations your product should be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. Some collection points accept products for free.The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.
