► SETUP INSTRUCTIONS

1. Lift the right and left arms resting in the frame of the bracket together. The two extended components meet to form a ball head.

2. Slide the thumb screw over the ball head of the joined arms. The threaded side of the screw must face up.

3. Place the tablet/phone holder on the ball head and press down firmly until the arms are locked into position.

4. Lift the thumbscrew to the threads of the clamp holder and turn the screw counterclockwise to set the angle of the bracket.

5. Lift the spring-loaded clamp of the remote control device and fit the tablet/photo holder into the tabbed slots of the top of the remote. Release the tension clamp to firmly hold the tablet holder together.

6. Tighten the thumbscrew of the holder to eliminate movement while handling the remote.
