DJ Mouse

Computer Dj in a Box

Product Overview

CONTROL YOUR MP3'S

PRODUCT DESCRIPTION

Package content :
1 x DJ Mouse
1 x Scratch mat
1 x PC/MAC DJ software

Dj-Tech is proud to announce the first Dj mouse (patent pending) ,

as it said, this mouse is fully designed and made for all DJ applications.

With a selection of serious materials and having in mind the great aluminium and rubber feeling, discover how easy to manipulate songs and mix them.

So funny to use the Automix and sampled sounds / jingles to get into the party with PERFECT BEAT MATCH. Powered by worldwide best dj software Deckadance for MAC and PC, the powerful auto beat engine and the section of digital effects are the tools to shape your mix.

The built-in Jog and the direct access to SCRATCH, will rock your computer and heat the dance floor.

DJ mouse includes a special mat for optimising the quality of your scratch performance.

The Blue ring Led is so helpful to locate your position on the mat and drive your performance.

Just Plug, Play, Mix, and ROCK your computer with Dj Mouse.
