

FP FLASHPOINT

600ws
Extension Head
for XPLOR 600 Strobe
with Bowens Mount

FPLFXP600

600WS Extension Head for XPLOR 600 Strobe with Bowens Mount

For safety reasons, disconnect the battery from the XPLOR strobe **BEFORE** removing the flashtube

1. Remove the flashtube from the XPLOR Strobe
2. Mount the Bowens Adapter (included) onto the front of the XPLOR strobe, and lock it into place
3. Insert the Extension head plug into the bulb socket on the XPLOR and lock it into the Bowens Adapter mount completely
4. Mount the bulb onto the Extension Head
5. Attach the battery to the XPLOR
6. Turn on the XPLOR
7. You can use the modeling lamp on the Extension Head exactly as the one on the XPLOR
