

FLASHPOINT

TURTLE BASE C-STAND & GRIP ARM KIT (10.5', BLACK)

Parameter

- Name: C tripod
- Load Capacity : 20kg
- Mounting Options: 5/8" Stud
- Number of Sections: 3
- Column Diameter: 35mm-30mm-25mm / 1.38" -1.18" -0.98"
- Maximum Working Height: 126" / 320cm
- Minimum Working Height: 53.15" / 135cm
- Collapsed Height: 53.15" / 135cm
- Footprint Diameter : 27.56" / 70cm
- Accepts Wheels: No
- Air Cushioned: Yes
- Detachable Base: Yes
- Leveling Leg: No
- Reverse Legs: No
- Finish Chrome: Yes
- Material: Stainless Steel
- Conector Color: Black
- Weight: 8.7 kg

List

Name	Quantity	Name	Quantity
Main rod	1	C type magic foot	1
Cross-bar	1	Instructions	1
Bar clamp	2		

Operation Instruction

Loose the big rotary knob on the bar clamp, which can adjust angle of the whippletree and adjust the whippletree from 360°; Ajust it to suitable angle then screw the big rotary knob locking tightly.

Function Introduction & Instruction

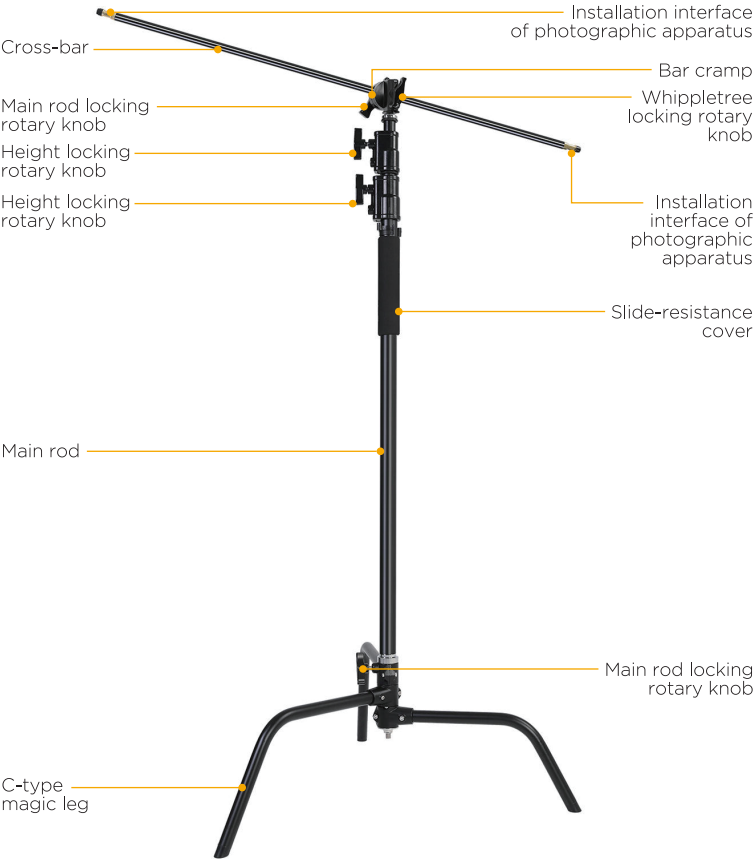

(1) Can install photographic apparatus and weights at the two ends of the cross-bar.

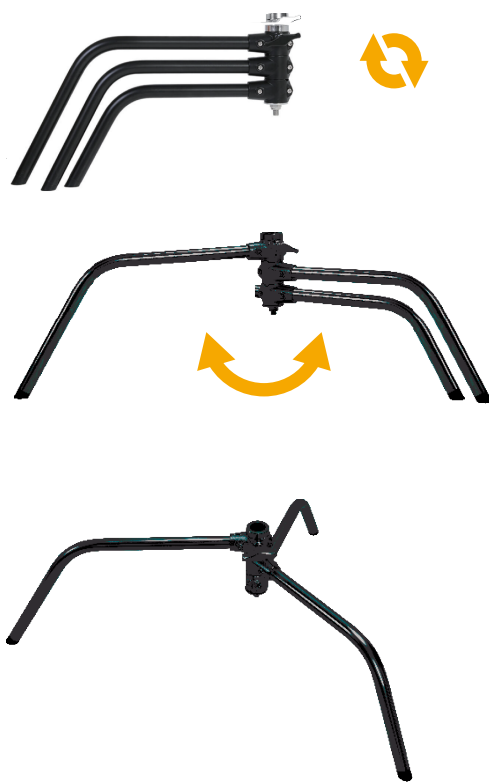

(2) Loosen the small knob of the other bar clamp, then insert the hole of the square part and the bar, then tighten the small knob and fix the bar clamp on the bar. It can be used to mount photographic equipment (e.g., soft screen flag plate) on this lever clip, or as a heavy object.

Structure Analysis
