- GrandBox Pro Focus Bounce Rod

CE / CSA / ISO 9001/ ISO14001/ **RoHS**

Thank You for Choosing the Glow GrandBox Pro Softbox.

The unique Glow GrandBox Pro Softbox series is the amazing construction of a parabolic design, supported by external aluminum flex rods; no fragile dowels or 'bones' interfere with the entire silvered interior bowl. The optional Focus Bounce Rod adds customization to the formula, adding up to a no compromise solution you only wished for. The result?

The ideal source for mastering all location situations where quality counts by imitating natural sunlight - even in a sports arena or outdoors on a playing field. The highlight /shadow ratio is optimized with a concentrated focus of illumination from the special bowl reflector, reverse umbrella design. The GrandBox Pro Softbox combines the strength of a key light while acting as an excellent reflector, blending perfectly with additional fill soft lights and is best for the full-length figure, fashion, large group shots, celebrity, lifestyle, and commercial assignments.

The patented construction mechanism is marvelously easy to open and close. The quick setup and convenient portability provides a perfect solution for serious photographers with excellence in lighting on their mind. There is exceptional efficiency in this design, and the flattering results reveal human form with grace and warmth, lending strength to this Softbox for typical striking fashion, portrait, and beauty photography. Light spread is exceptionally even, pleasing and contrasts balanced. The exceptionally smooth coverage handles groups and objects, even can be utilized for outdoor shoots, blending perfectly with daylight.

In essence, mastering the light is no accident. This one modifier can serve as the main light, as an excellent reflector, imitate a large direct source, or by adding the outer diffuser shield, you can change the overall wash of sharper light to a less harsh attitude, all the way to a soft touch bank light effect. Independently, the inner diffuser avoids hotspots while maintaining the 'pop' of the silvered rim of material extending beyond its position. The use of both outer and inner double diffusion material combine to go even farther to produce very soft light, thereby creating three levels of contrast, sharpness, and dimension.

The entire Glow GrandBox Pro series employs advanced technology designed to create perfect images from high-end fashion to editorial and product still life subjects.

Safety Instructions

Please read and understand all the instructions to avoid injury to yourself or damage to the Glow GrandBox Pro Softbox.

- Do not expose to moisture. Do not use a Glow GrandBox Pro Softboxes near water.
- Do not let any foreign matter spill into the softbox.
- Do not expose to chemicals such as benzene and lacquer based thinners. Do not use liquid or aerosol cleaners. Clean with a soft damp cloth only.
- Do not try to disassemble or repair a Glow GrandBox Pro Softboxes yourself.
- Do not subject a Glow GrandBox Pro Softboxes to severe impact.
- Do not place heavy objects on the folded or constructed softbox.
- Do not store in dusty environments or areas with high humidity.
- Glow GrandBox Pro Softbox fabric is heat-resistant to a degree. A 500w Halogen lamp can be used if the surface temperature does not exceed 1050F/40°C. Never expose the Softbox directly to fire.

Two Year Glow Limited Warranty

Glow warrants to the original purchaser that your Glow product shall be free from defects in material and workmanship for the period of two (2) years from the date of purchase (or delivery as may be required in certain jurisdictions), or thirty (30) days after replacement, whichever comes later.

Glow's entire liability and your exclusive remedy for any breach of warranty shall be, at Glow's option, to repair or replace the hardware, provided that the hardware be returned to the point of purchase or such other place as Glow may direct with a copy of the sales receipt or dated itemized receipt. Glow may, at its option, replace your product, offer to provide a functionally equivalent product, or repair any product with new, refurbished or used parts as long as such parts comply with the product's technical specifications. Any replacement hardware product will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer, or for any additional period that may be applicable in your jurisdiction. If the product has been discontinued, the warranty provider reserves the right to replace it with a model of equivalent quality and function.

This warranty does not cover problems or damage resulting from accident, abuse, misapplication, or any unauthorized repair, modification or disassembly, improper operation or maintenance, normal wear and tear, or usage not in accordance with product instructions or connection to improper voltage supply, use of consumables, such as replacement batteries, not supplied by Glow, except where such restriction is prohibited by applicable law.

Except where prohibited by applicable law, this warranty is nontransferable and is limited to the original purchaser and the country in which the product was purchased. This warranty gives you specific legal rights, and you may also have other rights, including a longer warranty duration that may vary under local laws.

To start a warranty claim contact the Glow Customer Service Department to obtain a return merchandise authorization ("RMA") number, and return the defective product to Glow, along with the RMA number and proof of purchase.
