

STUDIO CUBE 17"

STUDIO CUBE 27"

## Introduction

The Glow Studio Cube is the one-piece answer for creating photographs of products with exceptional clarity and that shadow-free presence that is so difficult to achieve, yet so desirable. Built-in brilliant LEDs envelop your items with pure 5400°K color that maintains exposure from shot to shot. Produce photos for online sales, catalogs, auctions or email from angles and perspectives from either of two camera portals. Control of lighting quality is a breeze with diffusion, applied as you like. One of the four included backgrounds is sure to hit the mark to make the final image or be ready for post-manipulation. The Studio Cube transforms down to a flat transportable carry case, power supply and all.

Remember: It isn't the camera; it's the light!

Think Out of the Box.

Think In The Cube.

---

## Safety Advice

- The environment should be dry and ventilated when using the light. The unit should never be exposed to water and moisture.
- Make sure you only use accessories with the proper voltage.
- Don't let children play with the unit. Keep the light out of reach from children.
- Should smoke come from the unit, disconnect the power immediately. It is normal for the fixtures to become warm when working.
- Don't use the light near flammable liquids or vapors, like gasoline.
- If you are packing the Studio Cube, please check that it is turned off and off before turning on.
- After using the light for extended periods, allow it to cool before storing, to avoid damage to the components.
- Please use the soft dry cloth to clean the light. If necessary, carefully wash the fabric with material dampened with neutral detergents, and then thoroughly dry with a soft cloth.

## Familiarize Yourself with the Studio Cube.

## Putting It All Together.

1. Lay the unfolded Studio Cube on a flat surface.
2. Fold up panels **A**, **B**, and **C** to meet and firmly connect the Velcro strips.
3. Optional step when using a kit background.  
Choose one of the supplied background for your subjects. Take the short clean end of the background and insert it into the pocket on panel **D**. Mate the Velcro on the other end of the background with the Velcro strip on panel **F**.
4. Complete the Studio Cube by joining section **D** on top of the sides **A**, **B**, and **C**. The Velcro strips must be connected firmly.
5. Side **B** contains the LED light array. Position the Studio Cube so that side **B** is uppermost.
6. Optional step when using the kit diffuser.  
Lift the top of the box up to reveal the Velcro edges. Place the diffuser panel on the strips of side **A** and side **C** and close the open lid, side **B**, over the installed diffuser. The LED's are now diffused.
7. Attach the power supply to an AC socket and you are ready to Studio Cube.

# Closing Up Shop

All good things must come to an end.

1. Unplug the power supply from the mains. Detach the LED array cable.
2. Gently separate all of the sides of the Cube from the adhering Velcro strips. Detach any backgrounds you may have used from the closures as well.
3. Lay the box flat on a surface. Insert all of the backgrounds into the pocket on side D.
4. Fold side B onto side F, being careful that the LED power cable is not hanging outside of the edges.
5. Take the panels A, C, and E and fold them over the panels B/F.
6. The former Cube is pretty flat now. Complete the Studio Cube for storage or transport by folding over the lid flap onto the closure strips. The remaining elements, the power adapter, cables and the diffuser can all be stores snugly in the mesh pocket.

## Specifications

### Glow Studio Cube 17" GLSCLED17

Led Count	120
Color Temperature	5400°K
Power Consumption	50W
Input Power	85~260V 50/60 Hz
Output	DC +42V / 1.5a
Dimensions	17 × 17 × 17" / 43 × 43 × 43cm
Weight	2.65 lb / 1.2 kg

### Glow Studio Cube 27" GLSCLED27

Led Count	150
Color Temperature	5400°K
Power Consumption	65W
Input Power	85~260V 50/60 Hz
Output	DC +42 V / 1.5 A MAX.
Dimensions	27 × 27 × 27" / 69 × 69 × 69cm
Weight	6.5 lb / 2.9 kg

## Two Year Glow Limited Warranty

Glow warrants to the original purchaser that your Glow product shall be free from defects in material and workmanship for the period of two (2) years from the date of purchase (or delivery as may be required in certain jurisdictions), or thirty (30) days after replacement, whichever comes later.

Glow's entire liability and your exclusive remedy for any breach of warranty shall be, at Glow's option, to repair or replace the hardware, provided that the hardware is returned to the point of purchase or such other place as Glow may direct with a copy of the sales receipt or dated itemized receipt. Glow may, at its option, replace your product, offer to provide a functionally equivalent product, or repair any product with new, refurbished or used parts as long as such parts are in compliance with the product's technical specifications. Any replacement hardware product will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer, or for any additional period of time that may be applicable in your jurisdiction. If the product has been discontinued, the warranty provider reserves the right to replace it with a model of equivalent quality and function.

This warranty does not cover problems or damage resulting from accident, abuse, misapplication, or any unauthorized repair, modification or disassembly, improper operation or maintenance, normal wear and tear, or usage not in accordance with product instructions or connection to improper voltage supply, use of consumables, such as replacement batteries, not supplied by Glow, except where such restriction is prohibited by applicable law.

Except where prohibited by applicable law, this warranty is nontransferable and is limited to the original purchaser and the country in which the product was purchased. This warranty gives you specific legal rights, and you may also have other rights, including a longer warranty duration that may vary under local laws.

To start a warranty claim contact the Glow Customer Service Department to obtain a return merchandise authorization ("RMA") number, and return the defective product to Glow, along with the RMA number and proof of purchase.

### Question about our product line? Need Product Support?
