

## Product Introduction

The 800D-RGB is an ideal choice for photography, interviews and live streams that require light colors with optimal precision, accuracy, and flicker-free output. The 800D-RGB is made of 168 pcs high brightness LED beads which with over 97 CRI value and 84 pcs RGB beads. 800D-RGB with a 360°mount offers dual power solutions - can be powered either via AC or for location shoots you can mount the lithium-ion battery comes with the light.

It features a stepless rear dimming dial for adjusting the light output from 0 to 99% and a second dial that displays your selected color temperature CCT from 3200K-5600K and RGB Mode with 360 selectable colors with saturation control SAT that yields a myriad of Hues, which means you can easily match it with other daylight sources as well as creative daylight conditions. Multiple control modes, stabilized system, lightweight and convenient design help to improve your light setting experience.

## Main Features

- Ultra Heat Dissipation
- Aviation Aluminum Alloy Shell
- High CRI of ≥97+
- Digital Display
- PWM Dimming
- Stepless Dimming Dial for Adjusting Brightness
- Stepless Dimming Dial for Adjusting Color Temperature
- Stepless Dimming Dial for Adjusting Saturation
- Multiple Control Modes
- Dual Power Solutions
- Convenient Light Setting and Stabilized System

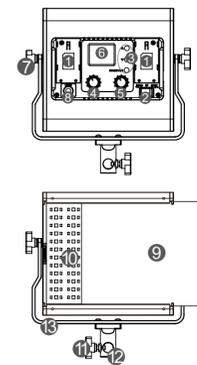

## Accessories

1

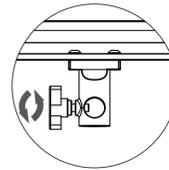

## Overview

- 1 Lithium Battery Slot
- 2 Power Switch
- 3 Control Mode Button
- 4 Brightness Adjustment Knob
- 5 Color Temperature/ Saturation/ Hue Adjustment Knob
- 6 Display Window
- 7 U Bracket Adjusting Knob
- 8 Power Interface
- 9 Soft Diffuser
- 10 LED Beam
- 11 Light Stand Locking Knob
- 12 Light Stand Installing Hole
- 13 U Bracket

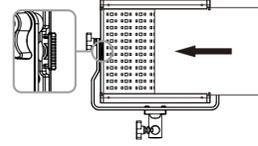

## Assembling

1 Assemble the Panel on the light stand by rotating the screw clockwise and disassemble by rotating counter-clockwise.

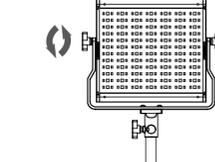

2

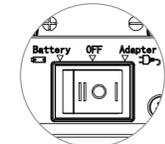

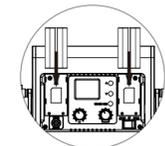

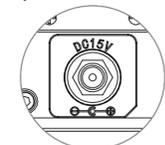

2 Insert the soft diffuser from one side of the light panel and fix it by the fix button.

3 Loosen the U bracket adjusting knob, adjust the angle of the panel which you need, then tighten the U bracket adjusting knob.

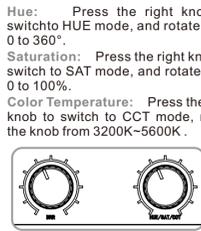

4 Plug the power adaptor / Insert the battery. Turn on the Power Switch.

3

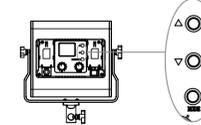

5 Brightness: Rotate the left knob from 1 to 100%.  
Hue: Press the right knob to switch to HUE mode, and rotate from 0 to 360°.  
Saturation: Press the right knob to switch to SAT mode, and rotate from 0 to 100%.  
Color Temperature: Press the right knob to switch to CCT mode, rotate the knob from 3200K-5600K.

7 The current control mode and lighting Parameters are shown on the LCD Window.

6 Choose the Control Mode with the Mode Button.  
Rotate Mode: Adjust the knob to control to light manually.  
Master-Slave Mode: Press Mode button to enter Mode: Master Press Mode button to enter Mode: Slave Press '▲'/'▼' to choose channel. The Master light can control slave lights on the same channel via Infrared Radiation.

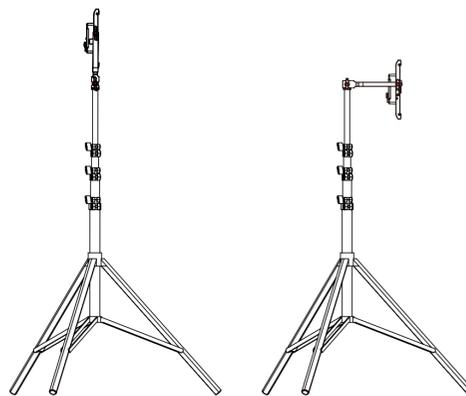

## Specifications

Model	LED Bead	CRI	Beam Angle	Color Temperature	RGB	Voltage	Power	Size
800D-RGB	252	97+	120°	3200K-5600K	Red, Green and Blue from 0-100%	DC15V	40W	270*263*40mm

## Mounting the light to light stand

Align the light stand installation hole to the light stand, rotate the light stand locking knob. You can choose the light stand installation direction according to your operating needs.

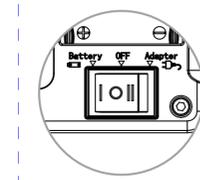

4

## APP Intelligent Control System

There is mobile APP control function of this light, available on your smart mobile device (Android 4. 0 or IOS 9. 0 or above) You can download the GVM Easily APP app on GVM online stores (www.gvmed.com) or android or app store.

### 1. Login into the mobileAPP
