

## PT4900-P2P

P2P Interview System with 2x 19" High Bright Teleprompter and HDMI Connection Cables

## Features

- Includes two teleprompters
- Monitor that supports image flip (vertical and horizontal)
- High-quality American-made 70/30 beam splitter glass
- Monitor built in an aluminum chassis
- Screen readable from up to 25'
- Works with many different sized cameras
- Easy balancing with adjustable base
- Perfect size for portability and view-ability
- Ships in reusable foam for easy transport
- Monitor has a dedicated button that can be set to flip the image: horizontal, vertical, or both
- PrompterPro software for MAC & PC is FREE with this teleprompter

## What's Included

2x Monitor

2x Large Riser

2x DSLR/  
Mirrorless Riser

2x Medium Riser

2x Bottom Plate

2x Base

2x Glass Frame Holder  
Bracket w/ Rod Clamps

2x Glass

2x Hood Attachment Frame

2x Glass Holder

2x Hood

2x Glass Frame  
Screws

2x 15mm Rod  
Clamps

4x 15mm Rods

2x Large Riser  
Bracket

# Teleprompter Assembly Setup

## Step 1

Place the Hood Attachment Frame over the Glass Holder. Then place the glass against the Glass Holder. Make sure the screws pass through the holes on the both the Hood Attachment Frame and the Glass Holder.

## Step 2

Secure the Glass Holder by fastening the knurled nuts to the screws as pictured below.

## Step 3

Remove the monitor mounts from the teleprompter base using the included larger 4mm hex key to loosen from the 15mm rods.

## Step 4

Put the washers on before tightening the screws. The washers and 4 additional screws are inside a bag on the bottom foam.

## Step 5

After the monitor mounts are attached, adjust the 15mm rods to accommodate the monitor. Leave about 1 inch of room for the teleprompter bracket. Make sure the 15mm rods go through both set of monitor mounts. Please ensure that all screws are properly tightened after inserting the monitor.

**\*SAFETY NOTE\*** Make sure to leave at least 2 inches of the rods inside the teleprompter base.

## Step 6

While sliding the teleprompter bracket into the slot of the Glass Frame Holder Bracket, pull on the red knob to allow the bracket to fully slide in.

## Step 7

Once the bracket is in place, tighten the side screw to lock in place. Double check and make sure all the screws are tightened with the included hex keys.

## Step 8

Fold the flaps of the Hood alongside the edges of the Hood Attachment Frame. The flaps of the Hood are magnetic so they will automatically attach.

## Step 9

To prevent light from leaking through the hood, seal both zippers down.

## Step 10

Slide in the Riser plate of your choice by aligning the screws on the riser plate to the slot on the Base. Once the screws are aligned, Slide the riser plate into the Base.

## Step 11

Slide in the Riser plate of your choice by aligning the screws on the riser plate to the slot on the Base. Once the screws are aligned, Slide the riser plate into the Base.

## Step 12

Mount your own tripod plate to the bottom plate by aligning the 1/4-20 and/or 3/8-16 screws and fastening them to the Bottom Plate. It is recommended that you connect your tripod plate to front of the Bottom Plate so that you can balance your teleprompter easier. Once your tripod plate is connected to the Bottom Plate, mount the tripod plate to your tripod head.

## Step 13

Slide the entire teleprompter system into the Bottom Plate. Once the teleprompter system is inserted, you can balance it by sliding it along the Bottom Plate until the center of gravity is determined.

## Step 14

Once the center of gravity has been determined, tighten the thumb screws to keep the base from sliding.

## Step 15

To secure your teleprompter system, insert the included headless screws into the threads behind and in front of the Base.

## Step 16

The headless screws should be inserted to the threads as pictured below.

## Step 17: P2P Interview/Interviewee Setup

After both teleprompters have been setup and placed on tripods/pedestals, using one of the video cables connect it to the camera on teleprompter 1 (interviewer) to the video input port of monitor on teleprompter 2 (interviewee). Using the other video cable to connect it to the camera of teleprompter 2 (interviewee) to the video input port of monitor on teleprompter 1 (interviewer).

## Foam Case

To make your teleprompter more portable, we packed it in a reusable, high-quality foam. The shape and size of the foam was designed to fit into Ikan's PT-CASE-V2.

**\*\* DO NOT THROW AWAY FOAM CASE \*\***

## Monitor Ports

- BNC – AV Composite Input
- VGA – Video Graphics Array DE15 Connection
- HDMI – High-Definition Multimedia Interface Input Connection
- Power Port – 12-24v Input

## Monitor Menu Settings

### Video Config

- Contrast (White Level)
- Brightness (Black Level)
- Tint (Chroma Hue)
- Chroma (Chroma Saturation)
- Sharpness (Detail)
- RGB Setup – Manually configure RGB
- Return

### System Config

- Menu Duration – Set duration of how long menu stays on screen
- Video Ratio – Set screen aspect ratio 16:9 or 4:3 (4:3 is native resolution, 16:9 will create black bars)
- Flip-H – Assign toggle button to flip image horizontally
- Flip-V – Assign toggle button to flip image vertically
- Reset – Factory reset
- Return

### PC Setup (Only available for VGA)

- H-Position – Adjust horizontal position
- V-Position – Adjust vertical position
- Auto – Monitor automatically adjust position
- Return

### Exit

## How to set-up FLIP button feature:

1. Press MENU button
2. Navigate to SYSTEM CONFIG.
3. Navigate to FLIP-V or FLIP-H
4. Change FLIP-V and/or FLIP-H to "ON"
5. Exit MENU
6. The FLIP button should now be activated and can be pressed to mirror the image Horizontally or Vertically
7. When FLIP-H is ON, the image will flip Horizontally
8. When FLIP-V is ON, the image will flip Vertically
9. If both are ON, the FLIP button will toggle both Horizontal and Vertical flip

- HDMI – Switch HDMI input
- VGA – Switch to VGA input
- AV – Switch to composite BNC input
- Flip – Toggle image flip  
(Can be set to horizontal, vertical, or both via menu)
- Up Arrow – Toggle up to adjust setting
- Menu – Access to monitor settings
- Down Arrow – Toggle down to adjust setting
