

## Model CS6 Series Selector Switch w/wall plate

Wall-mount selector switch for on/off control of up to six program sources is a two pole rotary with “Euro-Style” screw inputs. It’s ideal for program source selection in medical offices, mixed-use retail suites, schools, hotels, restaurants and residential applications where source selection without volume control adjustment is desired (where volume adjustment is accomplished at the source).

### Features

- Six inputs for remote source selection
- Screw terminal input connections; pigtail output connections
- May be used in conjunction with a 70/25V volume control (such as Lowell 25W, 50W or 100W LVC Series — order separately) by connecting selector output to attenuator input. Selector and volume control may then be mounted side by side in a two-gang E.O. box or in separate single gang boxes.
- Choice of one-gang plate (standard or decorator style; stainless steel, white, stainless steel & white, stainless steel & black)
- Matching knobs and mounting screws
- Mounting depth is 1" for convenient installation into a standard electrical outlet box or Lowell surface mount box No. P1X (order separately).

CS6-DW

CS6-DSB

CS6-DSW

### A&E Specifications

The source selection device shall be Lowell Model \_\_\_\_\_, which shall be a six input selector switch with \_\_\_\_\_ (standard, decorator style) 1-gang wall plate in \_\_\_\_\_ (stainless steel, white, stainless steel & black, stainless steel & white) with matching knobs and mounting screws. The selector switch shall be two-pole rotary style for isolation between lines. Wiring connections

shall be to screw terminals allowing the unit to be field connected as an independent selector for use with a volume control. The wall plate shall measure 2.75"W x 4.5"H x 1"D for installation into a standard gang size E.O. box (not included).

### Model Summary

Model No.	Description	Selector Switch	Selector Connections	Assembly Size (in)	Wall Plate Size	Wall Plate Style	Wall Plate Color
CS6-SS	6 position selector	2-pole, rotary	Euro style screw	2.75 x 4.5 x 1	1-gang	standard	stainless steel
CS6-DW	6 position selector	2-pole, rotary	Euro style screw	2.75 x 4.5 x 1	1-gang	decorator	white
CS6-DSB	6 position selector	2-pole, rotary	Euro style screw	2.75 x 4.5 x 1	1-gang	decorator	stainless steel & black
CS6-DSW	6 position selector	2-pole, rotary	Euro style screw	2.75 x 4.5 x 1	1-gang	decorator	stainless steel & white

## Typical Application and Schematic
