

COMPLETE SMARTPHONE  
VIDEO KIT  
FOR iPHONE

iVLOGGER

#### Instruction Manual

Thanks for choosing Movo!

The Movo iVlogger Vlogging Kit for iPhones is the ultimate All-In-One package for Smartphone Content Creators. Perfect for new creators, the kit comes with everything you need to start producing high-quality content today.

Plug in the VXR45 Microphone for an instant upgrade in your sound quality. The microphone features a Super-Cardioid Polar Pattern which zeros in on the audio you want to capture and cuts out unwanted background noise and audio distractions. Built with a 1/4-20 thread for mounting, an integrated shock mount, and a low-cut filter to eliminate low-frequency rumble, this mic is powered by your phone so you never need to buy new batteries. It also comes with both 3.5mm TRRS and 3.5mm Lighting cables for your convenience.

The LED-30's mixture of warm 3200K and cold 5500K color temperature lights and 3 brightness levels ensure that your subject is always properly lit. Mini LED Panel is rechargeable and mounts to DSLR cameras, camcorders, or smartphone video rigs that have a standard cold shoe. Additionally, there's a 1/4" thread on the bottom for tripods and other accessories.

The mini ball-head phone tripod has 360 rotation and features adjustable legs for a maximum height of 12.5". Mount lights, microphones, monitors, and other accessories to your mini tabletop tripod using the rail mount extension bracket for a fully customizable setup.

Whether you're looking for a filming kit for YouTube videos or vlog equipment for your podcast, the iVlogger is the perfect choice for all your smartphone recording needs.

#### Includes

- VXR45 Shotgun Microphone
- LED-30 Light
- Phone Clamp
- Tripod
- Extension bracket
- 3.5mm TRRS Cable
- Lightning Cable
- Micro-USB Cable

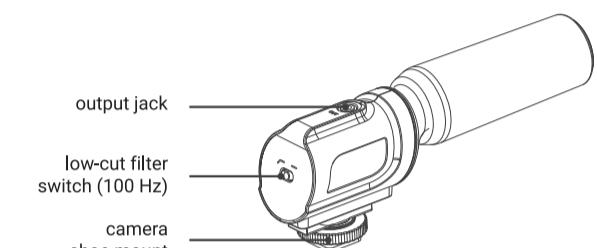

#### VXR45 Super-cardioid Unidirectional Condenser Microphone

##### For use on DSLR cameras/camcorders

The VXR45 is a lightweight super-cardioid condenser microphone that records high-quality audio to your DSLR cameras and camcorders. The VXR45 allows you to adjust the low-cut filter (100 Hz) to increase the intelligibility of dialogue. The cold shoe mount allows you to mount the microphone to a camera.

##### Set-Up Guide

- Attach the VXR45 to your camera or camcorder hot shoe. Connect VXR45 to the MIC input of the DSLR camera/camcorder with supplied 3.5mm audio output cable.
- Turn on your camera.
- Adjust the low-cut filter according to your needs. A low-cut filter can attenuate signals with frequencies lower than 100 Hz. It can be used to prevent rumble or other low-frequency noise while recording.

##### To connect to your Lightning iOS device

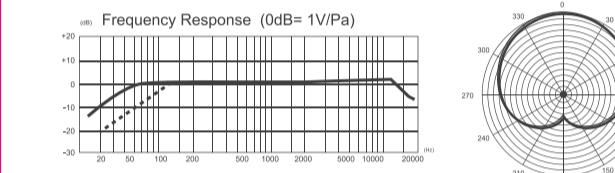

- Connect the 3.5mm TRS to Lightning cable into your iPhone or iPad.
- Open your audio or video recording app and start recording.
- When finished, unplug your TRS to Lightning cable from your iPhone or iPad to playback the previous audio you recorded.

#### Features

- Super-cardioid microphone
- Integrated shoe-mount
- Low cut filter (100 Hz)
- No battery required
- Power supplied by device
- 3.5mm audio output to camera
- Foam windscreen included
- Lightweight construction
