Brightness stays constant	Internal malfunction	Email repair@promarkbrands.com

Smith-Victor WARRANTY

Smith-Victor warrants to the first commercial owner to be free from defects in the material and workmanship for a period of one (1) year from the date of purchase and will repair or replace product found to be defective under normal use. Warranty does not cover damage caused by shipment, by product abuse, accident, modification, disassembly or use beyond intended use specified by Smith-Victor.

This warranty is the only warranty made to any person by Smith-Victor and is in lieu of all other expressed or implied warranties. The remedies set forth in this warranty shall be the exclusive remedies available to any person for breach of this warranty. Under no circumstances shall Smith-Victor be liable to any person for incidental or consequential damages, whether arising out of breach of warranty or other contract, negligence, strict liability or other tort or otherwise.

ACIES
PRO LED STRIP LIGHT

User Manual

Model: Acies32
Item: 401670
32” Pro LED Strip Light with Barndoors

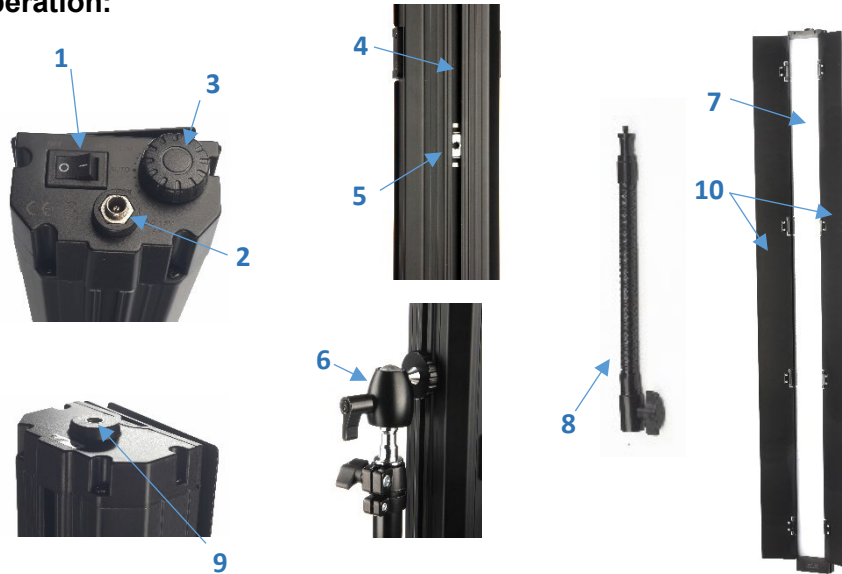

Model: Acies48
Item: 401672
48” Pro LED Strip Light with Barndoors

Features:

- High quality, soft, even light.
- Evenly illuminates a wide area.
- Barndoors can be adjusted to illuminate a narrow strip.
- Multiple mounting options allow adjustment to any angle.
- Great for interviews, groups, product photos and videos.
- Perfect for illuminating backgrounds, especially green screens.

Operation:

- 1 – Power switch
- 2 – Power socket
- 3 – Light intensity adjustment
- 4 – Positioning channel
- 5 – Sliding channel lock nut
- 6 – Universal ball head
- 7 – LED panel
- 8 – Flex arm
- 9 – ¼-20 mount
- 10 – Barndoors

Instructions

- 1. Mounting and positioning light:**
 - a. Position the spring loaded sliding lock nut (5) to the desired location.
 - b. Be sure ball head (6) tightening knob is securely fastened to provide resistance when screwing ball head into place. Mount ball head to channel lock nut by rotating the ball head clockwise until it is securely in place and cannot slide along the channel.
 - c. Connect ¼-20 threaded mounting hole (9) to light stand, flex arm (8) or other ¼-20 threaded fixture.
- 2. Power input**
 - a. Install power adapter output port to power socket (2). The socket will be locked when a “Click” is heard.
- 3. Power switch**

Turn the power switch (1) to “ON” and the light will illuminate.
- 4. Dimmer**

Rotate the light intensity knob (3) to adjust brightness (0-100%).
